

Divanadium trioxide
EINECS No. 215-230-9; CAS No. 1314-34-7

The purpose of the Pre-SIEF is for REACH Pre-Registrants to agree upon '**sameness**' of substance.

Pre-registrants that agree upon the sameness of substance will then pass into the Substance Information Exchange Forum (SIEF) for that substance, where the data-sharing discussion begins and is coordinated by the SIEF Facilitator.

Pre-Registrants that consider they do not have the same substance will be grouped together by the Pre-SIEF Facilitator for further discussion and potential entry into sub-SIEFs or another SIEF.

All pre-registrants for **divanadium trioxide** will receive an e-mail with a link to participate in the 'Substance Sameness' discussion. Your response to that survey will be your participation in the Pre-SIEF 'sameness' discussion. **The typical composition for this substance can be checked below.**

Substance	Divanadium trioxide
Synonyms	Vanadium trioxide
Chemical Formula	V ₂ O ₃
CAS Number	1314-34-7
EINECS Number	215-230-9
Typical composition	Mass (%)
Purity	min. 97
Vanadium	min. 66
Chromium	< 0.1
Potassium	≤ 0.5
Sodium	≤ 0.4
Iron	≤ 0.1
Silicon	≤ 0.08
Carbon	≤ 0.06
Aluminium	≤ 0.05
Sulfur	≤ 0.04
Phosphorus	≤ 0.03

The REACH Vanadium Consortium, Auer von Welsbach Straße 1, A-9330 Althofen, Austria,

www.vanadiumconsortium.com

is a voluntary industry scheme that invites all organisations and individuals involved in the vanadium business, which have a current or future interest in the European market, to join the consortium.
